**HOOSIER CARNATIONS**

The term "HOOSIER" refers to the State of Indiana and brings to many carnation growers' minds the long list of carnation varieties introduced by BAUR-STEINKAMP & CO. Fifty years of hybridizing has produced many of the leading commercial carnations including Betty Lou, Pink Abundance, Patricia, Pink Treasure and the world famous King Cardinal.

The name "HOOSIER" on the following new varieties is your assurance that they also are the product of the leaders in the field of carnation hybridizing and disseminating, BAUR-STEINKAMP & CO. A trial planting of each will demonstrate their value as profitable producers.

**HOOSIER SPICE**—A new pure white seedling with a very strong and spicy fragrance. Hoosier Spice was the winner of the Dorner Memorial Medal awarded to the best new variety for 1954 by the American Carnation Society. The flower is large and full. The growth is fast with good production. The delightful fragrance has a terrific punch. Now you can "Sell the Smell."

**HOOSIER DESIRE**—A new clear light pink seedling with a lot of quality. The flowers are large and full on long stiff stems. The color holds well in hot weather. The growth is upright with good production.

**HOOSIER GOLD**—A good deep yellow color with faint pink stripes during the dark months of the year. The flowers are full and well formed. The growth is healthy with good production. Here is a good yellow that is profitable to grow.
